

**“America’s Defining Hour!”**

**30 October 2021**

*Dr. Leon Threatt*

**Medical Freedom Summit**

- What made America the great nation it has been for generations? How far have we fallen? Are governmental overreach and vaccine mandates the fruit of a deeper problem? What do we do? How do we recover?

# America's Exceptionalism

America is great  
because of the God we  
believed, followed,  
trusted, and obeyed.

# How Far Have We Fallen?

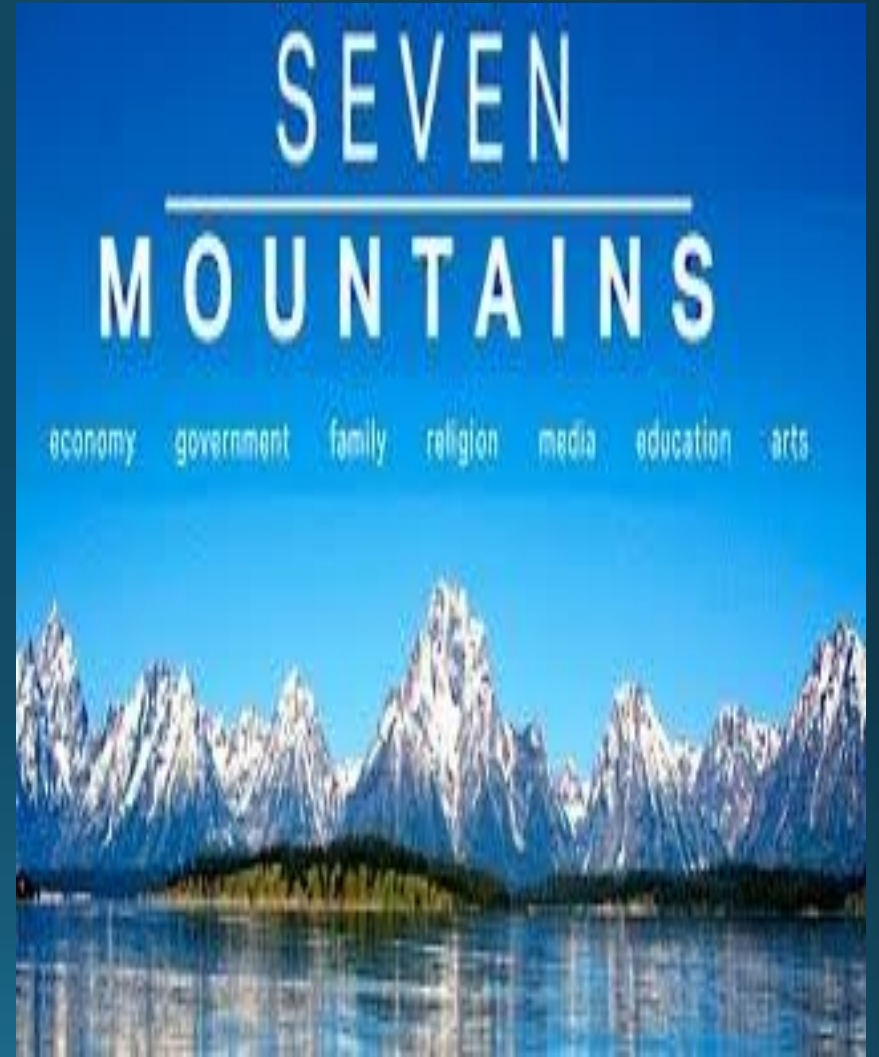

Abortion on demand

1973 Roe v. Wade. (Nearly 70 million pre-born children terminated)

# How Did We Get Here?

We forsook the God who made us great and abandoned the Biblical Worldview.

# How Do We Recover From An Inevitable Destruction?

Divine intervention is the only real hope for our nation. We cannot vote our way out of this mess.

**Closing Thought:** Have we passed the point of no return? Is there time and do we have the resolve to navigate away from the rocky shores of destruction? What will it take to save America? What's your part in this urgent effort?
